

May 14, 1973

and, of course, we'd like to have 311 and I presume that we will make a determined effort before we adjourn so I move we suspend the rules and vote on 311.

PRESIDENT: Senator Duis.

SENATOR DUIS: I think Senator Carpenter, if you'd make your motion then to suspend the rules to dispense with the reading of 311A, that would be the proper order.

SENATOR CARPENTER: I so ask.

PRESIDENT: Well, we have a, we already have a motion on 311A so now, I can't do that until I dispose of that motion here now. Senator Stahmer, what's your pleasure regarding 311A? What do you want to do with the--

SENATOR STAHMER: I'm going to move to amend the Carpenter motion and include 311A in the amend--in--and give it consideration too.

PRESIDENT: No, his motion--your motion is still pending.

SENATOR STAHMER: Alright, let's pass that up until 311A, 311's read.

PRESIDENT: Alright, Senator Stahmer now is asking unanimous consent to withdraw his motion which would return 311A to select file for a specific amendment. Are there objections to that, to withdrawal of that motion?

SENATOR STAHMER: I, I just moved to withdraw my amendment now to his motion. We'll consider that after we hear 311.

PRESIDENT: Okay. The motion is to read, if the Chair understands it, the motion is to suspend the rules and read 311. Senator Duis, we're, where did the Chair miss now?

SENATOR DUIS: I believe the motion was to suspend the rules and not read 311A because I believe the rule calls for the reading of 311A when 311 is read so I think the motion, if you don't mind, would be to, to dispense with the reading of 311A.

PRESIDENT: Thank you. Alright, then the motion is to suspend the rules and dispense with the reading of 311A. Is there a need for discussion? All those in favor-- Senator Stahmer?

SENATOR STAHMER: Certainly I like to discuss it. I think that this money is necessary and that it's needed, that we're going to be coming in here and voting buildings, I told Senator Luedtke on this floor three months ago, we're going to vote buildings in this body and we're going to forget about the people and my prediction came true. As long as we can erect glorious edifices to--so we can put our name on a cornerstone, we're happy. When it comes to providing money for people, especially the retarded and those who can't take care of themselves, we can't seem to find the way to push the button even though we're now operating 3, 4 or \$5,000,000 under the Governor's budget. I think this body ought to face up to its responsibilities to people, and, and stop thinking about buildings and many of you can't wait to get your trigger finger on the building bill so you can slap another 1, 2, 3, 4, \$5,000,000 onto that. We think Watergate's bad, I think what we're doing in this body is worse than anything happening in Washington.

PRESIDENT: Chair recognizes Senator Carpenter.
